

SAFETY DATA SHEET

Intercure® 18

According to Annex II of Regulation (EC) 1907/2006 (REACH)

Date: 05/2019

Page 1 of 7

1 IDENTIFICATION OF SUBSTANCE

1.1 Product Identifier:

Identification on the label/ Trade name: Intercure® 18
IUPAC name: Octadecyltrimethylammonium bromide
EC name: Trimethyloctadecylammonium bromide
EC no: 214-294-5
INDEX no: not available
CAS no: 1120-02-1
Registration no: 01-2120264130-71-0000
Molecular formula: C₂₁H₄₆BrN
Molecular weight: 392.51 g/mol

1.2 Relevant identified uses of the substance and uses advised against:

1.2.1 Identified uses:

Accelerating agent for synthetic rubbers.

1.2.2 Uses advised against:

No use specifically advised against.

1.3 Details of the Supplier of the material safety data sheet:

J. Allcock & Sons Ltd.,
Textile Street,
West Gorton,
Manchester,
M12 5DL.

Email: ja@allcocks.co.uk
Tel: +44 (0)161 223 7181
Fax: +44 (0)161 223 0173

2 HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture:

2.1.1 Classification:

According to Regulation (EC) 1272/2008 (CLP)
Acute toxicity (oral), Hazard Category 4, H302
Skin irritation, Hazard Category 2, H315
Sensitisation — Skin, hazard category 1B, H317
Serious eye damage, Hazard Category 1, H318
Hazardous to the aquatic environment — Acute Hazard, Category 1, H400 (M factor = 10)
Hazardous to the aquatic environment — Chronic Hazard, Category 1, H410

2.2 Label Elements:

Hazard Pictograms:

Signal Word(s):	WARNING	
Contains:	(6-aminohexyl)carbamic acid EINECS: 205-581-6	
Hazard Statement:	H317 May cause an allergic skin reaction	
	H315 Causes skin irritation. H302 Harmful if swallowed H318 Causes serious eye damage H410 Very toxic to aquatic life with long lasting effects	
Precautionary statement:	P261	Avoid breathing dust.
	P273	Avoid release to the environment.
	P302 P352	IF ON SKIN: Wash with plenty of soap and water
	P305 P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and continue rinsing
	P310	Immediately call a POISON CENTER/doctor.
	P403 P223	Store in a well-ventilated place. Keep container tightly closed.
	P501	Dispose of contents/container in accordance with local/regional/national/international regulation

2.3 Other hazards

The substance does not meet the criteria for PBT or vPvB classification according to Annex XIII of Regulation (EC) 1907/2006 (REACH)

3 COMPOSITION / INFORMATION ON INGREDIENTS

Substance/Mixture:

The product in question is a substance.

Ingredients:

SAFETY DATA SHEET

Intercure® 18

4 FIRST-AID MEASURES

4.1 Description of first aid measures:

General indications:	Immediately call a Doctor if you feel unwell or in case of doubt on health conditions, showing, if possible, this safety data Sheet. The first responders must always wear appropriate personal protective equipment (see SECTION 8.2)
Contact with the eyes:	Rinse cautiously with water for several minutes, holding the eyelids open. If eye irritation persists, get medical advice / Attention.
Contact with the skin:	Take off immediately all contaminated clothing. Wash with plenty of soap and water. If skin irritation / eruption occurs, Get Medical advice / attention.
Inhalation:	Remove person to fresh air and keep at rest in a position comfortable for breathing. If you feel unwell, give oxygen and immediately call a doctor.
Ingestion:	Rinse mouth with water. Do not induce vomiting, unless recommended by a doctor. Never give anything by mouth if the person is not conscious. If you feel unwell, immediately call a doctor.

4.2 Most important symptoms and effects, both acute and delayed:

Contact with the eyes:	Contact with the eyes may cause eye corrosion. May cause eye corrosion.
Contact with the skin:	Contact with the skin may cause skin irritation/sensitisation. May cause skin irritation/sensitisation.
Inhalation:	Inhalation: May cause mild irritation of the respiratory tract. May cause irritation of the respiratory tract.
Ingestion:	Ingestion: May cause harmful effects. May cause harmful effects.

4.3 Indication of any immediate medical attention and special treatment needed:

For indication of any immediate medical attention, see SECTION 4.1. Basic first aid and symptomatic treatment'

5 FIRE-FIGHTING MEASURES

5.1 Extinguishing Media:

Suitable:	Extinguishing media suitable for class A fires
Unsuitable:	Full water jet.

5.2 Specific Hazards arising from the substance or mixture:

Flammable solid. Dust may form explosive mixtures with air. In case of fire, carbon oxides, nitrogen oxides and other toxic pyrolysis products may be emitted.

5.3 Advice for fire-fighters:

Evacuate and isolate the area until complete fire extinction, by limiting access only to trained personnel. Fire-fighters must always wear appropriate protective equipment: positive pressure self-contained breathing apparatus (ref. EN 137); fireproof clothing (ref. EN 469); fireproof gloves (ref. EN 659); fire fighters boots (ref. HO A29-A30). Ensure inadequate ventilation. Avoid breathing gases/vapours and contact with eyes and skin. Stay upwind. Remove containers if it can be done without risk. Alternatively, cool the recipients exposed to fire with water spray. Prevent the contaminated extinguishing water flowing into drains or waterways.

6 ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personnel:	Alert the emergency personnel. Avoid generation of dust. Avoid breathing dust and contact with eyes and skin. Wear appropriate personal protective equipment (see SECTION 8.2)
For emergency responders:	Evacuate and isolate the area until complete dispersion of the substance and restrict the access only to trained personnel. Ensure adequate ventilation. Avoid generation of dust. Avoid breathing dust and contact with eyes and skin. Wear appropriate personnel protective equipment (see SECTION 8.2)

6.2 Environmental precautions:

Prevent the substance from leaking into the environment and run off into drains, surface waters and ground water.

6.3 Methods and material for containment and cleaning up:

Contain the spillage. Collect with mechanical means and transfer to a properly labelled container. Dispose of in accordance with local and national legislation. Clean surface thoroughly in order to remove residual contamination.

6.4 Reference to other sections:

For information on personal protection see SECTION 8.2. For information on disposal considerations, see SECTION 13.1

SAFETY DATA SHEET

Intercure® 18

Date: 05/2019

Page 3 of 7

7 HANDLING AND STORAGE

7.1 Precautions for safe handling:

Ensure adequate ventilation. Avoid generation of dust. If this can't be avoided, provide local exhaust ventilation suction. Avoid breathing dust and contact with eyes and skin. Wear appropriate personal protective equipment (see SECTION 8.2). Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Take precautionary measures against static discharge.

Ground/bond container and receiving equipment. Use explosion-proof equipment. Keep away from incompatible materials (see SECTION 10.5). Do not eat, drink, or smoke during use. Wash hands and other exposed areas after use. Wash periodically clothes and personal protective equipment to remove contaminants.

7.2 Conditions for safe storage, including any incompatibilities:

Store only in original container, tightly closed. Store in a cool, dry and well ventilated place (temperature = 15 – 30 °C). Avoid exposure to moisture and direct sunlight. Store away from heat, hot surfaces, sparks, open flames and other ignition sources. Take precautionary measures against static discharge. Store away from incompatible materials (see SECTION 10.5).

7.3 Specific end use(s):

See SECTION 1.2.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters:

DNEL – Workers – Dermal – Systemic effects – Long-term = 0.167 mg/kg bw/day

DNEL – General population – Dermal – Systemic effects – Long-term = 0.083 mg/kg bw/day

DNEL – General population – Oral – Systemic effects – Long-term = 0.083 mg/kg bw/day

PNEC – Aqua (freshwater) = 0.016 mg/L

PNEC – Aqua (freshwater) – Intermittent releases = 0.162 mg/L

PNEC – Aqua (marine water) = 0.0002 mg/L

PNEC – Aqua (marine water) – Intermittent releases = 0.016 mg/L

PNEC – Sediment (fresh water) = 0.058 mg/kg sediment dw

PNEC – Sediment (marine water) = 0.0006 mg/kg sediment dw

PNEC – STP = 3.16 mg/L

PNEC – Soil = 0.002mg/kg soil dw

8.2 Exposure controls:

Wear personal protective equipment in accordance with standards set by European and national legislation. Consult the supplier in all cases before making a final decision.

Skin protection: Wear a Type 5/6 coverall (ref. EN ISO 13982-1).

Hand protection: Wear work gloves impervious to chemical agents made of nitrile rubber (protective index 6 – thickness \geq 0.4 mm ; permeation time > 480 minutes or equivalent (ref. EN374). Replace gloves immediately in case of contamination or breakage.

Eye protection: Wear safety glasses with side shields (ref: EN 166).

Respiratory protection: Not required under recommended conditions of use. In case of insufficient ventilation or risk of generation of dust, wear a mask with a P2 type filter (ref. EN 143)

Technical and

hygienic measures: Provide local exhaust ventilation suction or other devices to maintain levels of particles in the air below the recommended exposure limits. Equip with emergency showers and eyewash device the areas in which handling and storage of substance takes place. Do not eat, drink, or smoke during use. Wash hands and other exposed areas after use. Wash periodically clothes and personal protective equipment to remove contaminants.

Environmental

Measures: Operate in accordance with the provisions of the relevant legislation concerning the water protection and waste management. Prevent the substance from leaking into the environment and run off into drains, surface waters and groundwater.

Thermal Hazards: Not expected under recommended conditions of use and storage.

SAFETY DATA SHEET

Intercure® 18

Page 4 of 7

9 PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties:

a) Appearance:	White crystalline powder (20°C – 1013 hPa)
b) Odour:	Ammonia
c) Odour threshold:	No experimental data available
d) pH:	Ca. 7 (95mg/l aqueous solution – 25°C)
e) Melting/freezing point:	266°C ± 2.5°C [ASTM E 794-95]
f) Initial boiling point and boiling range	>400°C Predicted with EpiSuite -MPBPWIN
g) Flash point	not relevant (solid)
h) Evaporation rate:	not relevant (solid)
i) Flammability (solid, gas):	Not flammable (EU method A.10)
j) Upper/lower flammability or explosive limits:	No experimental data available
k) Vapour pressure:	1.67E-10 Pa (25°C) Predicted with EpiSuite- Modified grain method
l) Vapour density:	not relevant (solid).
m) Relative density:	1.12 g/mL (25°C) ASTM D 1817-90
n) Solubility:	95mg/l (25°C – pH 7) [ASTM D 1766-90]
o) Partition coefficient: n-octanol/water:	No experimental data available
p) Auto-ignition temperature:	350°C (CEI EN 50281-2-1(Method B))
q) Decomposition temperature:	No experimental data available
r) Viscosity:	not relevant (solid)
s) Explosive properties:	not explosive [EU Method A.14]
t) Oxidising properties:	not relevant (based on chemical structure).
9.2 Other information:	
u) Particle size:	13.2 µm (D50 9.4 µm) [ASTM B 822-92]
v) Surface tension	35.9 mN/m (20°C) (OECD 115)

SAFETY DATA SHEET

Date: 05/2019

Page 5 of 7

10 STABILITY AND REACTIVITY

10.1 Reactivity:

The substance is not reactive under recommended conditions of storage and use.

10.2 Chemical stability:

The product is stable under standard conditions of use and storage

10.3 Possibility of hazardous reactions:

The possibility of hazardous reactions is not expected under recommended conditions of use and storage.

10.4 Conditions to avoid:

Avoid generation of dust. Avoid exposure to moisture and direct sunlight. Keep/store away from heat, hot surfaces, sparks, open flames and other ignition sources. Keep/Store away from incompatible materials (see SECTION 10)

10.5 Incompatible materials:

Alkalis, Acids and oxidising agents.

10.6 Hazardous decomposition products:

Following thermal decomposition, carbon oxides, nitrogen oxides and other toxic products may be emitted.

11 TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects:

for more information see Annex II of Regulation (EC) 1907/2006 (REACH)

a) Acute toxicity

LD50 oral (rat) = 300 - 2000 mg/kg [OECD 420]

Harmful if swallowed

b) Skin corrosion / irritation

RHE test (human epidermis) → not corrosive [OECD 431]

Causes skin irritation

c) Serious eye damage / irritation

BCOP test (bovine cornea) → corrosive [OECD 437]

Causes serious eye damage

d) Respiratory or skin sensitisation

LLNA test (mouse, lymph node) → sensitising [OECD 471]

May cause an allergic skin reaction

e) Germ cell mutagenicity

Ames Test → negative [OECD 471]

Based on available data, the classification criteria are not met

f) Carcinogenicity

No carcinogenicity effect known.

g) Reproductive toxicity

No reproductive toxicity effect known

h) STOT-single exposure

No STOT effect known after single exposure

i) STOT-repeated exposure

No STOT effect known after repeated exposure

j) Aspiration hazard

No aspiration hazard known.

12 ECOLOGICAL INFORMATION

12.1. Toxicity

for more information see Annex II of Regulation (EC) 1907/2006 (REACH)

EC50 invertebrates (Daphnia magna) = 0.058 mg/L (48 hours) [OECD 202]

EC50 algae (Desmodesmus subspicatus) 0.070 mg/L (72 hours) [OECD 201]

Very toxic to aquatic life with long lasting effects

12.2 Persistence and degradability.

Biodegradation → 0% (28 days) [OECD 301 F]

Not readily biodegradable

12.3 Bioaccumulative potential

SAFETY DATA SHEET

Intercure® 18

Date: 05/2019

Page 6 of 7

No experimental data available

12.4 Mobility in soil

No experimental data available

12.5 Results of PBT and vPvB assessment

The substance does not meet the criteria for PBT or vPvB classification according to Annex XIII of Regulation (EC) 1907/2006 (REACH).

12.6 Other adverse effects

The substance does not have effects on the ozone layer.

13 DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods:

Do not discharge into drains. Dispose of as hazardous waste in accordance with the provisions of Directive 2008/98/EC and Decision 2000/532/EC. These provisions are also applicable to contaminated packaging. It is therefore advisable to contact the authorities or authorised companies that can give indications on how to dispose. The identification of an appropriate EWC code is a specific responsibility of the waste producer.

14 TRANSPORT INFORMATION

The substance is subject to the provisions of existing legislation governing the transport of dangerous goods by road (ADR), rail (RID), sea (IMDG Code) and air (IATA).

UN number

ADR/RID: UN3077

IMDG Code: UN3077

IATA: UN3077

UN proper shipping name

ADR/RID: Environmentally hazardous substance, solid, n.o.s (Trimethyloctadecylammonium bromide)

IMDG Code: Environmentally hazardous substance, solid, n.o.s (Trimethyloctadecylammonium bromide)

IATA: Environmentally hazardous substance, solid, n.o.s (Trimethyloctadecylammonium bromide)

Transport hazard class (es)

ADR/RID: 9

IMDG Code: 9

IATA: 9

Packing group

ADR/RID: III

IMDG Code: III

IATA: III

Environmental hazards

The substance is hazardous to the environment (marine pollutant).

Special precautions for user

ADR/RID: Kemler no = 90 LQ = 5kg

IMDG Code: EMS no = F-A,S-F LQ = 5kg

IATA: -

Transport in bulk according to Annex 11 of Marpol and the IBC Code

Not applicable.

15 REGULATORY INFORMATION

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

The substance and its impurities are not included in the following lists:

- Substances of very high concern (SVHC) included in the candidate list for Authorisation
- Substances subjected to Authorisation procedure (Annex X1V)
- Substances subjected to Restriction procedure (Annex XV11)
According to Regulation (EC) 1907/2006 (REACH).

15.2 Chemical safety assessment

A chemical safety assessment has not been performed for the substance (REACH registration within the tonnage band 1-10 tpa).

SAFETY DATA SHEET

Intercure® 18

Date: 05/2019

Page 7 of 7

SECTION 16. OTHER INFORMATION

Revision:

The safety data sheet of the substance has been completely reviewed – in all its SECTIONS – on the basis of the new information available after the completion of the registration process according to Regulation (EC) 1907/2006 (REACH)

Key references and data sources:

N,N'-hexamethylenebis (cinnamylideneamine) – REACH registration dossier

Advice on any training appropriate for workers:

The staff responsible for handling the substance should be informed about its hazards and potential risks related to its use and be instructed on the precautions to be taken in order to avoid or limit exposure.

Acronyms:

ADR:	European agreement concerning the international carriage of dangerous goods by road
CAS:	chemical abstracts service
CLP:	classification, labelling and packaging
DNEL:	derived no effect level
EC:	European community
EC50:	median effective concentration
EWC:	European waste catalogue
IATA:	international air transport association
IMDG Code:	international maritime dangerous goods code
LC50:	median lethal concentration
LD50:	median lethal dose
NOAEL:	no observed adverse effect level
PBT:	persistent, bioaccumulative and toxic
PNEC:	predicted no effect concentration
REACH:	registration, evaluation, and authorisation of chemicals
RID:	regulations concerning the international carriage of dangerous goods by rail
vPvB:	very persistent and very bioaccumulative

Notes:

The information provided in this safety data sheet is correct to the best of our knowledge at the date of its publication. The indications given are designed only as a guidance for safe handling, use, processing, storage, transportation and disposal and is not to be considered a warranty of quality specification. The user must verify their suitability and completeness, also in accordance with its particular use of the substance.
