See Section 7 for information on safe handling.  
See Section 8 for information on personal protection equipment.  
See Section 13 for information on disposal.

### SECTION 7 HANDLING AND STORAGE

#### 7.1 Precautions for safe handling:

Precautions should be taken to prevent the formation of dusts in concentration above flammable, explosive or OEL's. Avoid inhalation of the dust. Good housekeeping standards and regular safe removal of waste material will minimise risks of spontaneous combustion and other fire hazards. Use normal hand and eye protection. The Manual Handling Operations Regulations may apply to the handling of containers of this product. Refer to the guide weight indicated on the container when carrying out assessments.

#### 7.2 Conditions for safe storage, including any incompatibilities:

Store in a dry place and avoid sources of heat or ignition. Store below 38°C.
